Abstract. *This document provides information and instructions for preparing a paper to be included in the Proceedings of the EECCOMAS Conference. The paper can be written in TEX, Latex or Word. The first page is reserved for the title of the paper, the authors, affiliation, key words and the Abstract. The Introduction must begin at the top of the second page. All the instructions as well as the source for the example files for TEX or Word can be found in the web pages of the Congress.*

Second page content:

1 INTRODUCTION

The proceedings will be edited in a CD-ROM, including the texts and figures, using Portable Document Format (PDF). The editors will be in charge of translating the paper from TEX, Latex or MS-Word to PDF.

For this purpose, a 3.5" DOS formatted diskette must be sent, containing either:
a) The TEX or Latex files, the DVI file, the TEX macros used and the figures in Encapsulated Postscript format, or
b) the MS-Word file with all figures and non-standard fonts embedded.
In both cases, please send us a Hard Copy printout.

All this information may seem redundant, but given the time constraint this is probably the best way to avoid possible errors.

It is good practice to send a second diskette containing exactly the same information. The diskettes should be clearly labeled with the title, the corresponding author of the paper and the type of processor used. Also include a plain text (ASCII) README.TXT file with a description of all the files in the diskette.

All the paper files must be contained in one diskette. If needed, the following file compressors may be used: *pkzip* (DOS), *compress* or *gzip* (UNIX).

Please send all this information **by airmail to the Spanish Congress Secretariat**, do not use e-mail or other electronic communication for this purpose.
